Small Residential Income Property Appraisal Report

File#

This report form is designed to report an appraisal of a two- to four-unit property, including a two- to four-unit property in a planned unit development (PUD). A two- to four-unit property located in either a condominium or cooperative project requires the appraiser to inspect the project and complete the project information section of the Individual Condominium Unit Appraisal Report or the Individual Cooperative Interest Appraisal Report and attach it as an addendum to this report.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject property, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

**INTENDED USE:** The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client,

**DEFINITION OF MARKET VALUE:** The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions\* granted by anyone associated with the sale.

\*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

- 1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
- 2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements, including each of the units. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size.
- 3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
- 4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
- 5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.
- 6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

Comments on Sales Comparison

THE DOMINANT FEATURE OF THE SUBJECT IS LOCATION, UTILITY, AND CONDITION. THE COMPARABLES SELECTED BEST REPRESENT THESE FEATURES.

THE MOST WEIGHT WAS PLACED ON COMP 1 DUE TO ITS CLOSE PROXIMITY.

DEVIATION OF GUIDELINES: COMPS 2 AND 4 ARE LOCATED IN NEIGHBORING CITIES AND ARE OVER A MILE FROM THE SUBJECT, THEY WERE UTILIZED DUE TO THE LACK OF DATA IN DOLTON. LOCATION ADJUSTMENTS ARE WARRANTED.

THERE HAVE BEEN 5 UNIT SALES IN DOLTON IN THE PAST YEAR. 4 OF THE 5 SOLD AS DISTRESSED. SEE EXTRA PAGE 1 AT END OF REPORT FOR SUPPORT. DUE TO THE LACK OF DATA AND DATED SALES IN DOLTON, SALES DISTANT AND FROM CALUMET HEIGHTS HAD TO BE UTILIZED. SALES FROM THE CITY OF RIVERDALE WERE CONSIDERED BECAUSE OF THEIR SIMILAR AGE AND UTILITY HOWEVER, THEY WERE NOT UTILIZED BECAUSE THE MEDIAN COST OF A SINGLE FAMILY OR UNIT PROPERTY RIVERDALE IN THE

THE LOCATION ADJUSTMENT BETWEEN DOLTON AND CALUMET CITY (COMPS 2 AND 4) WAS MADE BASED ON COMPARING SINGLE FAMILY PROPERTIES IN EACH CITY. SINGLE FAMILY COMPARISONS WERE MADE DUE TO THE LACK OF DATA OF UNIT SALES (5 IN DOLTON) WHICH WOULD NOT PROVIDE ACCURATE RESULTS. THERE IS A \$26,000 DIFFERENCE BETWEEN VALUES IN THE TWO CITIES. SEE SUPPORTING CHARTS ON EXTRA PAGES 2 AND 3 AT THE END OF REPORT.

THERE WAS A \$2500 ADJUSTMENT MADE FOR BEDROOM DIFFERENCE (ABOVE GRADE) AND A \$1000 ADJUSTMENT MADE FOR BATH, UNITS TYPICALLY RENT BASED ON BEDROOM COUNT AND CONDITION RATHER THAN BATH COUNT THEREFORE, THE BEDROOM COUNT ADJUSTMENT IS HIGHER.

BASED ON REALTOR COMMENTS, MLS LISTING, AND INTERIOR PHOTOS WHEN AVAILABLE, COMPS 2-5 ARE ALL SIMILAR IN CONDITION COMPARED TO THE SUBJECT.

COMP 1 IS LOCATED ON THE SUBJECT'S STREET. IT IS SIMILAR IN UTILITY AND THE SAME AGE. IT SOLD AS A FORECLOSURE WHICH ARE TYPICAL OF THE MARKET. PER THE VILLAGE OF DOLTON INSPECTION DATED FROM 9/2016, IT FAILED THE INSPECTION AND NEEDS A NEW METER. THERE ARE LEAKY FIXTURES AND THE WATER HAS BEEN TURNED OFF. DUE TO THE BELOW AVERAGE CONDITION COMPARED TO THE SUBJECT, AN ADJUSTMENT IS WARRANTED IN CONDITION. THE CONDITION ADJUSTMENT WAS BASED ON MATCH PAIRS WITH COMPS 2-5.

Final Reconciliation

ALL OF THE WEIGHT AND CONSIDERATION HAS BEEN PLACED ON THE SALES COMPARISON ANALYSIS. THE STRENGTH OF THIS APPROACH IS THAT IT HAS BEEN TESTED IN THE OPEN MARKET WITH TYPICAL BUYERS AND SELLERS COMING TOGETHER IN WHAT THEY CONSIDER TO BE THEIR OWN BEST INTERESTS. ULTIMATELY, THE FINAL SALES PRICE MEASURES THE ACTIONS OF BUYERS

AND SELLERS IN THE MARKET, IT IS THE PROCESS THAT IS THE BEST AND MOST RELIABLE INDICATOR OF VALUE. THE COST APPROACH IS NOT TYPICALLY RELIED UPON BY MARKET PARTICIPANTS AS A MEANS OF DETERMINING MARKET VALUE WITHIN THIS PARTICULAR MARKET SEGMENT AND THEREFORE WAS NOT NECESSARY IN ORDER TO PRODUCE A CREDIBLE APPRAISAL. THE INCOME APPROACH IS ALSO NOT RELIED UPON BY MARKET PARTICIPANTS TO BE A RELIABLE INDICATOR OF MARKET VALUE AND SINGLE UNIT RESIDENCES ARE NOT TYPICALLY PURCHASED FOR THEIR INCOME POTENTIAL, THEREFORE THIS APPROACH WAS NOT NECESSARY IN ORDER TO PRODUCE A CREDIBLE APPRAISAL.
